

December project update

What happened in November?

The growing occupational health and well-being transformation group meeting was held on 17th November. During this, there were group activities on the digital solution for the service and developing occupational health staff's clinical and leadership skills. Below is a diagram of leadership showing the model we would like to introduce.

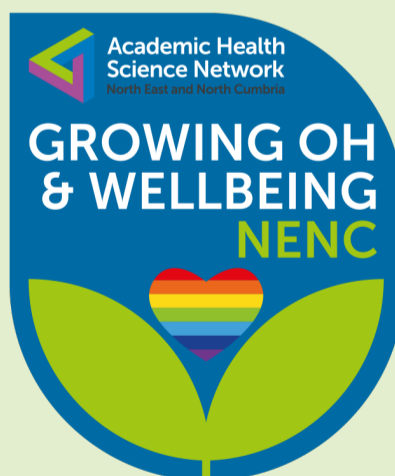

NHS England and Improvement is committed to investing in developing the leadership and improvement skills and confidence of NHS employed OH people, and everyone can pick the development opportunity that's right for them. For more information please follow this [link](#).

Four task and finish groups on the core areas of the project have been established and the first monthly virtual meetings are set on 17th December (service model and digital solutions) and 21st December (career pathway and HWB).

Developing an IT specification for the digital solution has been commissioned to an external company in order to ensure a transparent process around the procurement of the system.

Logo update

The winner for the best logo design which will be used for the Growing OH and Wellbeing branding is:

Thank you

Thank you all who joined us for the virtual Q&A session on 22nd November. We will host another in the next quarter in March 2022.

We want to take the opportunity and thank you all for your effort and cooperation with this project and supporting us in any possible way. We are looking forward to working with you all in 2022. We wish you and your loved ones a Happy Holiday and a joyful New Year!
